Title Index

A Revised Estimate of the Life Span for Lake Nasser. S. E. Smith, 123–129.

Acidity Gradients in the KIPDA Region. K. L. Gauri, A. R. Punuru, and G. C. Holdren, 55–58.

Adsorption of Oxyanions by Spent Western Oil Shale: I. Arsenate. L. K. Spackman, K. D. Hartman, J. D. Harbour, and M. E. Essington, 83–91.

Adsorption of Oxyanions by Spent Western Oil Shale: II. Selenite. L. K. Spackman, K. D. Hartman, J. D. Harbour, and M. E. Essington, 93–99.

Book Review. J-C. Roux, 159–160.

Catastrophic Landslip Activity in Two Hard Rock Terrains of Peninsular India. Y. V. Ramana and B. S. Gogte, 199–205.

Control of Porosity on Durability of Limestone at the Great Sphinx, Egypt. A. R. Punuru, A. N. Chowdhury, N. P. Kulshreshtha, and K. L. Gauri, 225–232.

Decay and Preservation of Stone in Modern Environments. K. L. Gauri, 45–54.

Direct Impacts of Outer Continental Shelf Activities on Wetland Loss in the Central Gulf of Mexico. R. H. Baumann and R. E. Turner, 189–198.

Editorial—A State Geological Survey Commitment to Environmental Geology—the Texas Bureau of Economic Geology. E. G. Wermund, 73–75.

Editorial—Preventing Groundwater Contamination is Possible. G. W. Page, 163.

Editorial—River Forecasts May Ease the Water Crisis of the 1990s. C. B. Barrett, 1–3.

Effects of Hopper Dredging and Sediment Dispersion, Chesapeake Bay. M. Nichols, R. J. Diaz, and L. C. Schaffner, 31–43.

Geotectonics, Karst Morphology, and Environmental Problems. M. Herak, 59–60.

Heavy Metal Distribution in Sediments of Krishna River Basin, India. R. Ramesh, V. Subramanian, and R. Van Grieken, 207–216.

Hydrogeology and Historical Assessment of a Classic Sequential-Land-Use Landfill Site, Illinois, U.S.A. C. J. Booth and P. J. Vagt, 165–178.

Hydrographic Surveys and Sedimentation in Deep Bay, Hong Kong. S. H. Wong and Y. S. Li, 111—118.

Influence of Construction on Hydrogeological and Environmental Conditions in the Karst Region, Eastern Herzegovina, Yugoslavia. P. Milanović, 5–11.

Integrated Analysis of Policy Options for Protection of Groundwater Quality. N. D. Uri and W-Y. Huang, 233–241.

New Method of Quantitatively Describing Drainage Areas. L. Håkanson, T. Andersson, and Å. Nilsson, 61–69.

Relative Inactivity During the Last 140,000 Years of a Portion of the La Paz Fault, Southern Baja California Sur, Mexico. B. J. Szabo, B. P. Hausback, and J. T. Smith, 119–122.

Some Examples of Mining in Ireland and its Impact on the Environment. C. R. Aldwell, 145–157.

Specific Chemical Composition of Karst Groundwater in the Ophiolite Belt of the Yugoslav Inner Dinarides: A Case for Covered Karst. N. Kresic and P. Papic, 131–135.

Study of Groundwaters Using the Environmental Tritium and Hydrochemical Data in the Belgrade Region. M. Hadzišehović, M. Župancić, N. Milijević, D. Paligorić, and M. Komatina, 13–29.

Travel Times of Seepage Water Through Multilayered Covering Systems for Hazardous Waste Sites. S. Wohnlich, 137–144.

Unexpected Hydrologic Perturbation in an Abandoned Underground Coal Mine: Response to Surface Reclamation? D. Harper, G. A. Olyphant, and E. J. Hartke, 179–187.

Vapor-Phase Interactions and Diffusion of Organic Solvents in the Unsaturated zone. W. R. Roy and R. A. Griffin, 101–110.

Weathering of Limestone Beds at the Great Sphinx. A. N. Chowdhury, A. R. Punuru, and K. L. Gauri, 217–223.

Wind Action and Sand Movement near Holkham Bay, North Norfolk Coast, England. W. I. Oronsaye, 77–82.
